

Utility Vehicle

UV33

Work. Play. Repeat. One Vehicle for Every Adventure.

Not just for work. Not just for leisure.

A balanced utility vehicle designed for real, everyday use.

Dynamic Design, Optimized for Life and Work

A new standard in crossover UTV. Built for both work and everyday life, it features a refined design DNA and a cohesive family look. The result is a more polished and sophisticated exterior. Blending the boundary between industrial equipment and lifestyle product, it offers an enhanced brand experience for existing users and a strong sense of ownership appeal for new customers.

Signature Style, Refined Appeal

UV33 features signature LED headlights, striking wheels, and the iconic Bobcat emblem. The refined front design and practical cargo box combine to deliver a vehicle that's as impressive as it is versatile. Make every ride stand out with design that works as hard as you do.

Effortless Driving, Anywhere, for Anyone

With intuitive controls, it's easy for anyone to operate, while the compact yet capable design adapts to a wide range of environments. From public services and facility management to everyday leisure, it delivers stable and comfortable driving wherever you go.

Drive Modes for Every Condition

Selectable drive modes-Turf, 2WD, 4WD and 4WD Lock-allow you to adapt quickly to changing terrain with confidence. Turf Mode Assist helps minimize ground disturbance, making it suitable for sensitive surfaces like farms, parks, and turf areas.

Gentle on the Ground, Strong on Performance

Turf Mode Assist minimises ground disturbance, so even the most delicate surfaces stay in top shape. Ideal for farmers, municipalities, and landowners who value surface protection.

Smooth Steering, Instant Traction

Electronic differential lock and electric power steering deliver smooth, responsive handling and rock-solid stability, even on rough tracks. Tilt steering helps you find a comfortable driving position, so you can go the distance without the fatigue.

Speed, Safe Ride

Choose the right pace for every drive. The system includes two ignition keys with different speed settings - One that limits the max speed to 40 km/h (25 MPH) and one that opens up the full potential.

All Day Comfort

Enjoy a spacious cabin, sliding driver's seat, and clear digital display – making every journey easy, no matter your size or skill.

Room to Move, Comfort to Spare

Enjoy a spacious cab with ample headroom and generous legroom, delivering a comfortable and practical driving space for every ride. The innovative sliding driver seat lets you tailor the cabin for even greater comfort and convenience. No matter your size or skill, everyone gets a first-class experience behind the wheel.

Easy Park, Worry-Free Start

The electric parking brake (EPB) makes parking simple and safe with push-button operation and automatic release. Even first-timers can park and go with confidence.

Clear Display & Easy Connectivity

The clear digital display shows speed, drive modes, and system alerts at a glance. Bluetooth and USB connectivity keep your devices powered and connected, so you never miss a beat – even on the job.

Loads of Storage for Work and Play

Keep your gear sorted and your cabin tidy with multiple storage spots – glovebox, centre tray, under-seat compartments, and more. Waterproof storage compartments let you stash tools, personal items, or snacks safely, even when you're out in the bush or facing wild weather. Make the most of every trip with fold-down centre seat storage and net trays. Whether you're on the job or out for some fun, your gear stays protected, you'll always be organised and ready to go.

Comfort for All – Three Headrests

No matter who's riding up front, every seat comes with its own headrest and seat belt for maximum comfort, support, and safety. With three headrests and seat belts, all passengers enjoy a relaxed and secure drive.

Built For Real Work

A class-leading cargo bed and smart load features help you carry more, more efficiently.

Biggest Cargo Box, Fewer Trips

Carry more with the class-leading cargo box and keep your gear organised in multiple waterproof storage spots. Whether it's tools, materials or personal items, you'll have all the space you need and the peace of mind that everything stays safe and tidy, rain or shine.

Cargo Box with Built-in Smarts

Tailgate ruler, bucket and drink holders, and D-rings make loading, measuring, securing and organising your cargo a breeze—perfect for both worksites and weekend adventures.

- Tailgate Ruler (Metric / Inch)
- Beverage Holders x 4
- 5 Gallon · Bucket Holder x 4
- Cargo Box D Ring x 4

Powerful pulling performance - 4,500 lb Winch

Mounted at the front, Bobcat's winch helps pull equipment or debris from high-angle extraction situations with confidence. With a 4,500 lb capacity, extra muscle is always within reach.

Tow, Load, Move – All with One Vehicle

Rear hitch lets you tow trailers for transport, loading or shifting gear—so you're always ready for the next job, wherever it is.
